

Identity & logos

A professional, evidence-led identity for a B2B carbon credit marketplace.
TGS connects buyers to third-party-issued and certified credits.
It is a marketplace facilitator, not a registry or verifier.

Deep Teal logo / light backgrounds

Lime logo / dark backgrounds

Original transparent PNGs included: 1920 × 1080 px.
Preserve proportions; do not recolour, stretch, rotate or add effects.
No vector master or approved size/clear-space specification is available.

Colour & typography

Deep Teal

#02403D

Lime

#E2FF4D

Taupe

#D8CAC3

Mauve

#665458

Cream

#FFFDF8

Libre Baskerville

Headings / Regular, bold and selective italic emphasis

Helvetica Neue / Helvetica

Body copy / Arial and sans-serif fallbacks

Named brand HEX values are shown above; interface token shades may vary.

Font files are not bundled. Libre Baskerville is available from Google Fonts.

Helvetica requires a valid licence or an available system font.

Voice & usage

Professional. Transparent. Fact-based.

Write for sustainability managers, auditors and consultants.

Keep environmental claims conservative and supported by evidence.

Avoid consumer-style gimmicks, promotional hype and unsupported guarantees.

Required disclosures

Carbon credits do not eliminate emissions and should be used as part of a broader decarbonization strategy.

Credits listed on this platform are issued and certified by third-party standards. The Green Solve acts as a marketplace facilitator.

Do not imply TGS verifies or certifies credits.

Never use “TGS-verified”. Do not present carbon credits as eliminating an organisation’s emissions.

What is included

This guide, two original transparent PNG logos, written guidelines and machine-readable colour values. No new identity has been created.

Basis & limitations

Prepared from the website assets and saved brand requirements.

Vector artwork and formal logo sizing rules were not available.
